FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Speedway #4600				DATE 1/15/2016	TIME IN 1:30 PM	TIME OUT 3:00 PM
ADDRESS 23905 Catt Rd, Wildomar, CA 92595				FACILITY DESCRIPTION Not Applicable		
PERMIT HOLDER Western Refining Retail LLC				EMAIL s6390@mpcretail.com		Major Violations 0
PERMIT # PR0066294	EXPIRATION DATE 01/31/2022	SERVICE Routine inspection	REINSPECTION DATE 1/21/2016	FACILITY PHONE # (866)876-2455	PE 2611	DISTRICT 0044
INSPECTOR NAME Kristen Burnham					Points Deducted 2	

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

○ In = In compliance + COS = Corrected on-site ○ N/O = Not observed ○ N/A = Not applicable ○ OUT = Out of compliance

---------------------------------	-------------------	-----------------------

34. UTENSILS AND EQUIPMENT APPROVED, GOOD REPAIR

POINTS
2

Inspector Comments: The hot dog roller cannot be accessible to the customers for self-service. Relocate to the back room. An ideal location would be on a table where the ice maker currently is. Once the unused ice maker is gone this area can be used for food prep. The cooked and wrapped hot food items can then be kept in a commercial grade hot holding unit in the customer area.

Alternatively, the lid can be reversed on the unit so customers cannot access product.

This facility will be re-checked 1/21/16 for compliance. Contact inspector if there are any questions.
Cut the iced coffee dispensing tubes at a 45 ° angle and ensure the tubes are no longer than one inch long.

Violation Description: All utensils and equipment shall be approved and in good repair. (114130, 114130.1-114130.6, 114132, 114133, 114137, 114175, 114177, 114257)

36. EQUIPMENT AND UTENSILS: INSTALLED, CLEAN, ADEQUATE CAPACITY

POINTS
0

Inspector Comments: notes:
Remove old stickers and sticker residue from the 3-compartment sink basins.

Clean the floorsinks throughout the facility.

Violation Description: All utensils and equipment shall be clean and installed in an approved manner. Equipment type and quantity shall be adequate for the operation.(114115, 114130.3, 114139, 114153, 114163, 114165, 114167, 114169, 114175, 114180, 114182, 114257)

38. ADEQUATE VENTILATION & LIGHTING: DESIGNATED AREAS; USE

POINTS
0

Inspector Comments: note:
Provide end caps for the light tube covers for fixtures above the soda machine.

Violation Description: Mechanical exhaust ventilation shall be provided to remove toxic gases, heat, grease, vapors, and smoke. All areas of a food facility shall have sufficient ventilation to facilitate proper food storage and provide a reasonable condition of comfort for each employee. Toilet rooms shall be vented to the outside air by a screened openable window, an air shaft, or a light-switch activated exhaust fan. Adequate lighting shall be provided in all areas to facilitate cleaning and inspection. Light fixtures in areas where open food is stored, served, prepared, and where utensils are washed shall be of shatterproof construction or protected with light shields. (114149, 114149.1, 114149.2, 114149.3, 114252, 114252.1)

41. PLUMBING: PROPERLY INSTALLED, GOOD REPAIR, WASTE WATER DISPOSAL

POINTS
0

Inspector Comments: note:
Cut and/or raise the drain lines so they end at least one inch above the floorsink. Several lines require modification.

Violation Description: All plumbing shall be installed in compliance with local plumbing ordinances, shall be maintained so as to prevent any contamination, and shall be kept clean, fully operative, and in good repair. All food-related equipment drain lines must discharge through an approved indirect connection. Any hose used for conveying potable water shall be made from approved material and used for no other purpose. (114171, 114189.1, 114190, 114192(b,c), 114193, 114193.1, 114199, 114201, 114269)

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):
 "If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

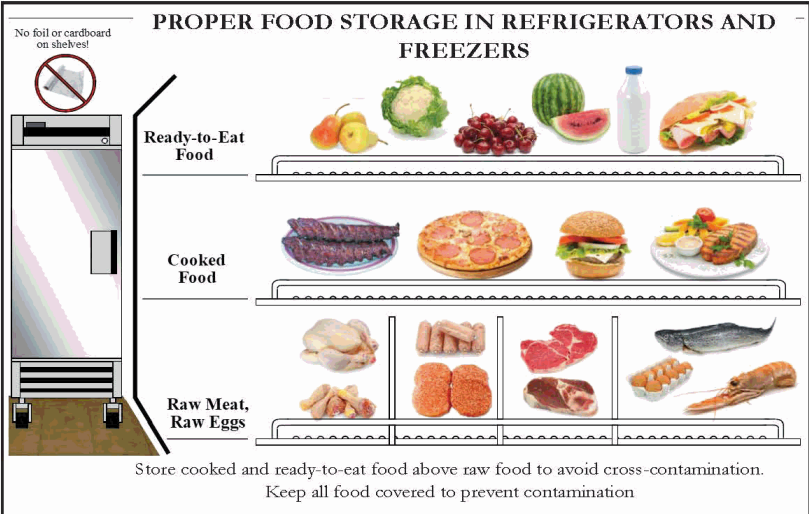

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

No foil or cardboard on shelves!

Ready-to-Eat Food

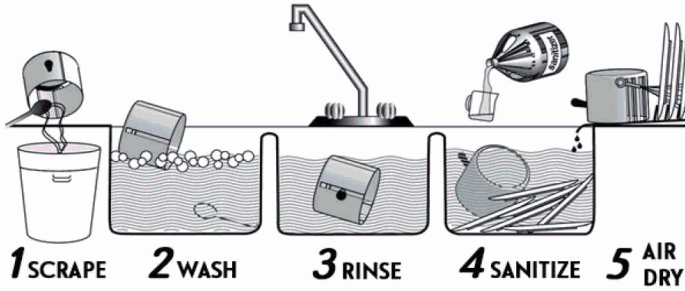

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination. Keep all food covered to prevent contamination.

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

							
135°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	155°F for 15 seconds	155°F for 15 seconds	165°F for 15 seconds	165°F for 15 seconds

Food temperature cannot be felt - use your probe thermometer!

THE MAJOR 8 FOOD ALLERGENS

MILK

EGGS

FISH

SHELLFISH

WHEAT

SOYBEANS

PEANUTS

TREE NUTS
