FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Chipotle Mexican Grill #1943				DATE 11/10/2022	TIME IN 3:15 PM	TIME OUT 4:15 PM
ADDRESS 1160 E Ontario Ave #101, Corona, CA 92881				FACILITY DESCRIPTION Not Applicable		
PERMIT HOLDER Chipotle Mexican Grill Inc				EMAIL ca.1943.corona@chipotle.com		Major Violations 0
PERMIT # PR0060236	EXPIRATION DATE 11/30/2023	SERVICE Routine inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (951)444-2000	PE 3621	DISTRICT 0051
				INSPECTOR NAME Falaksher Hameed	Points Deducted 3	

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.
 GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

● In = In compliance + COS = Corrected on-site ○ N/O = Not observed ○ N/A = Not applicable ○ OUT = Out of compliance

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Chipotle Mexican Grill #1943	DATE 11/10/2022	PERMIT # PR0060236
---	--------------------	-----------------------

38. ADEQUATE VENTILATION & LIGHTING: DESIGNATED AREAS; USE

POINTS
1

Inspector Comments: Repair the inoperable light fixture inside the ventilation hood above the rethermalizer. Maintain in working condition.

Violation Description: Mechanical exhaust ventilation shall be provided to remove toxic gases, heat, grease, vapors, and smoke. All areas of a food facility shall have sufficient ventilation to facilitate proper food storage and provide a reasonable condition of comfort for each employee. Toilet rooms shall be vented to the outside air by a screened openable window, an air shaft, or a light-switch activated exhaust fan. Adequate lighting shall be provided in all areas to facilitate cleaning and inspection. Light fixtures in areas where open food is stored, served, prepared, and where utensils are washed shall be of shatterproof construction or protected with light shields. (114149, 114149.1, 114149.2, 114149.3, 114252, 114252.1)

40. WIPING CLOTHS: PROPERLY USED AND STORED

POINTS
1

Inspector Comments: Observed single-use wiping cloths stored submerged in a sanitizer solution less than 200ppm quaternary ammonium inside the sanitizer bucket at the back prep area. Store wiping cloths fully submerged in an approved sanitizer solution (e.g., 100 ppm chlorine, 200 ppm quaternary ammonium or 25 ppm iodine) between uses, or provide a clean cloth for each use.

Violation Description: Wiping cloths used to clean food spills shall be used only once, unless stored in an approved concentration of sanitizer solution and laundered daily. (114135, 114185.1, 114185.3(d-e))

44. PREMISES; PERSONAL ITEM STORAGE AND CLEANING ITEM STORAGE

POINTS
1

Inspector Comments: Wet mop was observed to be stored directly in the basin of the mop sink. Store mop in a manner to facilitate rapid and thorough air drying and to prevent potential contamination.

Violation Description: Lockers or another approved area for personal belongings shall be provided. The premises of each food facility shall be kept clean and free of litter and items that are unnecessary to the operation or maintenance of the facility. At least one janitorial sink with hot and cold running water shall be provided. Cleaning supplies and equipment shall be stored separate from food and food-related areas. Mops shall be stored in such a way that allows air-drying. (114123, 114256, 114256.1, 114256.2, 114256.4, 114257.1, 114279, 114281, 114282)

Overall Inspection Comments

The purpose of this visit is a routine inspection.

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):
 "If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

No foil or cardboard on shelves

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Store cooked and ready-to-eat food above raw food to avoid cross-contamination.
 Keep all food covered to prevent contamination

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

1 SCRAPE 2 WASH 3 RINSE 4 SANITIZE 5 AIR DRY

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

135°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	155°F for 15 seconds	155°F for 15 seconds	165°F for 15 seconds	165°F for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
