**General Comments:**

This facility is hereby ordered closed due to a failing grease interceptor system. Cease all use of water within the facility. Discontinue all operations including food preparation, utensil handling, and warewashing.

The facility may reopen when evidence of the following has been emailed to Kristen Burnham at [KBurnham@rivco.org](mailto:KBurnham@rivco.org). Send invoices of all plumbing services rendered and pictures of the clean up. You do not need to wait for a reply to reopen.

1. The grease interceptor(s) has been pumped
2. Grease interceptor lines have been jetted or otherwise cleared to restore full function
3. The ground at the grease interceptor lids has been professionally cleaned to remove grease and waste residue
4. Any run off trails from the failure in the parking lot are likewise professionally cleaned.

Be advised that during clean up of the ground and parking lot all water, chemicals, and fluid used to clean the ground must be collected and properly disposed of. A referral to flood control will be issued if any wastewater run-off from the clean up leaves the property.

Any operation of the food facility, including food preparation, warewashing, or food sales, prior to completing repairs and sending evidence will result in further legal action, including citation(s) and/or an Administrative Hearing.

A follow up will occur on 7-9-24 to verify conditions.
