**General Comments:**

Inspector Le met with manager Bernice for a re-inspection of the facility following a recent fire incident (CO1003564). However, the inspection could not be properly completed as electricity and gas were unavailable, preventing an evaluation of the hot water and equipment functionality.

Additionally, no receipt was provided for the evaluation or repair of the exhaust hood and Ansul system.

Manager must email the service report for the exhaust hood/Ansul system to Inspector Le at [luanle@rivco.org](mailto:luanle@rivco.org). Ensure electricity and gas are turned on before requesting a re-inspection.
