General Comments:

Inspector Le conducted a follow-up inspection regarding the recent fire incident (Complaint CO1003564) at this facility. Observed closure sign posted per City of Murrieta Fire/Building and Safety still in place. Manager Berenice was present during this re-inspection.

- The cookline equipment, food preparation surfaces and surrounding floor and wall were clean and sanitized, with no residue from the fire extinguisher discharge.
- The manager confirmed that all affected food had been discarded, and any impacted equipment or utensils were either discarded or properly washed, rinsed, and sanitized.

Once electricity and gas are restored, ensure the following:

1. All refrigeration units maintain food at 41°F or below.
2. Hot water is available at 100°F at all hand sinks and 120°F at the three-compartment sink.
3. The Ansul system and exhaust hood above cooking equipment are properly evaluated, certified, and function in accordance with all applicable agency guidelines (e.g., Fire Department). Submit the service invoice for the exhaust hood and Ansul system to the inspector via email.

The facility is approved for operation pending final approval from all other agencies.
