FOOD ESTABLISHMENT INSPECTION REPORT

FACILITY NAME Bedford Canyon Shell	DATE 08/12/2025	PERMIT # PR0090680
---------------------------------------	--------------------	-----------------------

General Comments:

Observations:

1. Food safety certification

Status: OUT (2 PTS)

Inspector Comments: Operator could not provide food manager certificate. Provide valid food manager certificate onsite for review. This is a repeat violation. Failure to comply may result in further legal action.

Violation Code - Food facilities that prepare, handle or serve non-prepackaged potentially hazardous food, shall have an employee who has passed an approved food safety certification examination. Food safety certificate must be maintained at the food facility and made available for inspection. (113947.1 - 113947.5)

7. Proper hot and cold holding temperatures

Status: OUT (2 PTS)

Inspector Comments: Observed a bottle of teriyaki sauce and chili sauce measuring 69F on a prep table. Operator stated the bottles were opened 2 hours prior. Relocate bottles to a working cooler. Maintain potentially hazardous foods at or below 41F or at or above 135F.

Violation Code - Potentially hazardous food shall be held at or below 41°F / 45°F or at or above 135°F. Potentially hazardous food removed from proper holding temperature during preparation must be returned to proper temperature within 2 hours. Potentially hazardous food shall be received at proper temperature without evidence of temperature abuse. (113996, 113998, 114037)

21. Hot and cold water available

Status: OUT (2 PTS)

Inspector Comments: Observed temperature of water at nonadjustable hand sinks in restrooms measuring 111F. Decrease and maintain between 100-108F.

Violation Code - An adequate, protected, pressurized, potable supply of hot water and cold water shall be provided at all times. Hot water of at least 120°F must be provided for facilities with unpackaged food. Handwashing facilities shall be equipped to provide warm water for at least 15 seconds. (113953(c), 114189, 114192 (a,d), 114192.1, 114195)

25. Person in charge present and performs duties, demonstration of knowledge

Status: NOTE (PTS)

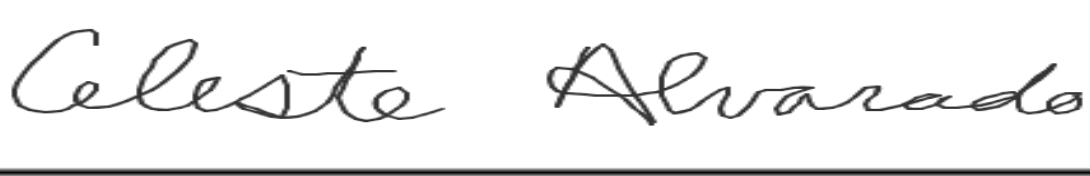

Inspector Comments: "Person in charge" was not available and could not provide answers to questions asked regarding food procedures and temperatures. Ensure a person in charge is present at all times who is knowledgeable on food safety.

Violation Code - A person in charge shall be present at the food facility during all hours of operation. The person in charge and all food employees shall have adequate knowledge and shall be trained in food safety as it relates to their assigned duties. The person in charge shall have adequate knowledge of major food allergens and must provide education to employees. (113945, 113945.1, 113947, 113947.1(b)(2), 113984.1, 114075)

31. Adequate food storage; food storage containers identified

Status: OUT (1 PTS)

Inspector Comments: Observed packages of dry ramen stored on the floor under a storage rack. Elevate all food at least 6in off the ground.

FOOD ESTABLISHMENT INSPECTION REPORT

FACILITY NAME Bedford Canyon Shell	DATE 08/12/2025	PERMIT # PR0090680
---------------------------------------	--------------------	-----------------------

Violation Code - Food shall be stored in approved containers and labeled as to contents. Food shall be stored at least 6" above the floor on approved shelving. (114047, 114049, 114051, 114053, 114055, 114067(h), 114069 (b))

35. Warewashing: installed, maintained, proper use, test materials

Status: OUT (1 PTS)

Inspector Comments: Operator could not provide test strips for sanitizer. Provide test strips for chosen sanitizer.

Violation Code - Food facilities that prepare food shall have approved warewashing equipment. Testing equipment and materials shall be provided to measure the wash water temperature and applicable sanitization method. (114067(g), 114099, 114099.3, 114099.5, 114101(a), 114101.1, 114101.2, 114103, 114107, 114125)

39. Thermometers provided and accurate

Status: OUT (1 PTS)

Inspector Comments: Provide a metal probe thermometer for internal temperatures. Provide a reference thermometer in the spam masubi hot holding unit.

Violation Code - An accurate, easily readable metal probe thermometer suitable for measuring temperature of food shall be available. A thermometer shall be provided for each refrigeration unit. (114157, 114159)

49. Food Handler Certifications available, current, and complete

Status: OUT (1 PTS)

Inspector Comments: Operator could not provide food handler cards. Provide and maintain food handler cards for all employees that handle open food, equipment, or utensils.

Violation Code - County of Riverside Environmental Health Food Handler Certification(s) are available and current for all employees who prepare, store, or serve exposed food. (Riverside County Ordinance 567)

REASONS FOR IMMEDIATE FACILITY CLOSURE

Per California Health and Safety Code Section 114409 (a):
 "If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, per California Health and Safety Code Section 114411:
 "The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

Time is the key factor in proper cooling

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper time frames.

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A 3-COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink.

Use one of the following sanitizing methods:

- 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
- 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
- 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
- Water at a temperature of 171°F for a minimum of 30 seconds in solution

5. **AIR DRY** all items on the drain board.

PROPER FOOD THAWING METHODS

- Under refrigeration
- In a microwave oven on "defrost"
- Submerged under cold running water in an approved preparation sink for no longer than 2 hours
- As part of the cooking process

8 MAJOR FOOD ALLERGENS

- Milk
- Eggs
- Peanuts
- Tree nuts (e.g., almonds, walnuts, cashews)
- Fish (e.g., salmon, tuna, cod)
- Shellfish (e.g., shrimp, crab, lobster)
- Wheat
- Soy

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

135°F	145°F	145°F	145°F	155°F	155°F	165°F	165°F
for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Did you know you are protected from civil and criminal liability when donating food? The Federal Good Samaritan Food Donation Act (Civil Code, 171425) provides liability protections for good faith donations of surplus food. The California Good Samaritan Food Donation Act (California Retail Food Code, 114432) further expands the list of entities covered by the protection. It also allows for direct donation to a person from regulated and inspected facilities in addition to stating past-date food is subject to liability protection. Please consider donating your excess food product to a local food recovery organization. For more information visit our website at www.rivcoeh.org.
