PERMIT HOLDER Ming-Hua Kuo			EMAIL		
PERMIT # PR1000514	FACILITY DESCRIPTION FF 2001-5999 SQFT Unpack	EXPIRATION DATE 08/31/2026	DISTRICT 46	SERVICE Inspection/No Score	REINSPECTION DATE Next Routine

General Comments:

This inspection was prompted due to a complaint received to this department CO1007232. Inspector S.Zepeda and P. Dimon observed the facility to have an active flow of wastewater at the grease interceptor at the back of the facility and water was observed at the drain inside the facility. Observed wastewater to flow down the driveway of the facility down the parking lot and into the gutter system. At this time this facility has been closed due to unsanitary water entering the public parking lot, walkway, and motorway. Properly repair the plumbing system and eliminate all active wastewater flow. This facility shall not use/minimize use of water fixtures at the facility until the repair has been made. This facility may not be reopened until a member from this department approves its use. Contact inspector at (951) 461-0284 or Szepeda@rivco.org for reopening.
