General Comments:

This was a reinspection conducted due to a facility downgrade and closure of open food items on 05/13/2026. At the time of reinspection, the facility was observed selling open food products, and an active cockroach infestation consisting of all life stages was observed in both the front and back kitchen areas.

The facility voluntarily closed at this time and is to remain closed until the cockroach infestation has been fully abated, the facility has been thoroughly cleaned and sanitized, and compliance has been verified by a representative of this Department. Failure to comply with this order may result in further enforcement action.

The Person in Charge was instructed to immediately discard all open food items. A closure sign was posted at the facility; do not move, remove, or obstruct the sign.
