General Comments:

This inspection was done in conjunction with a complaint.

At this time the hot water was measuring at the three compartment sink 79F and at the hand wash sinks 79 F. Per the person in charge the hot water went out around 2 days ago and instructions were received from corporate to stay open. Instructed the person to close the facility. Operator voluntarily closed. Observed open food production during the time of the inspection. Instructed the person in charge to discard any foods that have been prepared while the hot water was out. It is the owners responsibility to ensure all potentially contaminated food is discarded. Provide a video of the hot water reaching 120 F and the invoice of the work done to this Department for approval to use. Failure to comply could result in further legal action including citations.
